

Patient Information

Please share this information with your patients and their loved ones to help them understand the LDK difference.

Who is LDK?

With over 20 years' experience and a passion for changing the future for senior Australians, LDK's vision is that every senior will be treated with Love, Decency & Kindness throughout their ageing journey. LDK villages are where the vision comes to life, offering a place where seniors can enjoy life as they have always done and couples stay together, a place they can simply call home.

What is the difference between Aspire Aged Care and a nursing home?

Aspire Aged Care, LDK's genuine alternative to a nursing home, breaks the mould of traditional aged care options, offering a place where residents live with purpose and privacy. While we provide the same level of care that you'll find in a traditional nursing home, our key difference is that everything we do is underpinned by our core values of *Love, Decency & Kindness*. Care plans are tailored to suit individual needs and goals and services are delivered in the comfort of their own home. Residents also live in beautiful apartments with a private ensuite, their own kitchen and living area, vastly different from the traditional standard of aged care living.

Our *One Move Promise*® means that when your loved one moves into an LDK village, they will never have to leave and will be surrounded by caring LDK staff and the friends they've made in the village throughout their journey.

Where is the Aspire community?

Co-located within Greenway Views®, Tuggeranong, Aspire's beautiful bushland location in Canberra sets the scene for our active and vibrant community. Close enough to local shops and amenities but exclusive enough to enjoy a sense of privacy, peace and quiet every day. With an extensive lifestyle and entertainment programme, our residents have access to a variety of social clubs and activities as we believe it's important for seniors to continue doing the things they love.

How can you give me peace of mind?

We understand each journey is different. So our journey begins with a care assessment conducted by our own LDK nurses, to implement a care plan unique to each resident. With alert systems and 24/7 emergency response, our care team work around the clock to deliver planned and unplanned care.

Why should I find out more information?

Good question! There's only so much we can fit into this brochure. Aspire and all of its benefits need to be seen to be believed. Please ask your GP for more advice about your loved ones individual needs and suitability. You can also visit our website or call us to arrange a coffee and a tour of our stunning village.

We'd love to meet you.

What people say

Now that you've had the chance to understand how LDK offers care, it's time to hear what family and residents themselves have to say.

“

Our mother wasn't at all happy being in a nursing home. At the nursing home she was stuck in a chair all day due to very limited space in her room. When we told her about Aspire Aged Care within Greenway Views® and what her room would be like, she booked in straight away for respite and 2 months later she moved in permanently. LDK has given her some independence to prepare her own meals and do her own washing while also having daily carers who come to help her shower and give her medication. All her needs are being met and we have a lovely place to visit her.

Mary-Anne, daughter of resident

“

I emailed Mum's GP and told him we were struggling to find a place, and he suggested LDK. I didn't realise there was high care on offer. So, I called on Monday morning, booked in for a tour Monday afternoon, I brought my sisters back on the Friday and paid the deposit then and there.

Jo-Anne, daughter of resident

“

Here, I feel safe, secure and supported by all members of the LDK team irrespective of their different roles. The mission statement of 'Love, Decency, Kindness' more than lives up to its promise for which I am most grateful. The care team and all other members of the LDK team have my admiration and support. But most of all, they have my gratitude.

Patrick, resident
